

Julian's G266BJU in China

G-WAC Notes

From the
Project Jay Preservation Group

A News sheet for those who are interested in
the early Land Rover Discoverys

Julian's D3 in China.

*Wishing you all a Merry Christmas
and a Happy and Prosperous New Year.*

December 2016

The application forms for the 2017 show season are starting to come in the post and email, so I hope that you will have something for us to show next year, other than the four regulars.

Julian should have 457 complete by then, and if we manage to have our stand adjacent to the CVC+R stand, 457 should be able to sit alongside our exhibits.

Only at one show this year did we have the full complement of five cars on show, and that was with the help of Patrick with his G-BKV factory car.

Have a merry Christmas, and I hope to see a few of you at the shows next year.

Practical Classics magazine.
Classic Car & Restoration Show.

G461WAC for sale.

One of the launch cars in 1989. A LHD Tdi in Caracal (black). One owner since released by Land Rover Ltd in 1990. Stored dry for last five years, but starts and runs well. 153305 km (95,300 miles).

5 seats. No roof bars but retains original Land Rover long roof rack.

We have again been allocated a space at the NEC to show our 29-year-old Discoverys.

The organisers like to see a car in the process of being restored/recommissioned, so if anyone has one in a state of repair that could be driven or trailered to the show, perhaps you would like to show your car. It does not have to be a G-WAC, but ideally a G registered car.

It is a three day show and the setup day is on Thursday 30th March, or very early on Friday 31st March. Once on the stand the car would need to remain there until closure on Sunday 2nd April.

Do let me know if you are interested.

Do let me know if you are interested.

Good sound chassis, but recent MoT check revealed a need for two front tyres and two new headlamps, plus a few minor adjustments. A/C needs refurbishing.

Can be seen close to the M1 junction 27 in Nottinghamshire.

£3,000 with MoT, but I am prepared to consider substantial discount if sold "as is" and an offer made before end of January.

Swapping the tailgate seal.

The rubber door seals are prone to damage with time, and so allowing water leakage into the car. On my Discovery 1, 1992, the tailgate seal has been flattened on its door-hinges-side.

After a downpour or a carwash with the garden-hose, I could find wetness on the right side of the boot-floor-ground and the thick insulation mat above.

Therefore, I had to swap the tailgate-seal part No. CKE101000.

First the old seal is to be torn out of his fold on the door-frame. After a good cleaning, the new seal can be fitted beginning in the middle of the upper edge, pressing the reinforced cavity in his fold with the handball supported by light strokes with a wooden hammer, especially in the bends.

When the job is done, the rear door will close a bit heavier, because the new seal has more resistance, than the old tired one.

Dr. Diether Hofmann. Germany

26-year-old Discovery goes on show in China.

G266BJU, in Armada Gold, is the oldest 5-door Tdi Discovery in existence, first registered June 1990, and is a Pre-production vehicle.

Despite having covered 200,000 miles in 26 years, she has survived in smart original condition; so much so, that JLR asked to borrow her for press and publicity tours in China.

BJU's owner, Julian Lamb, was delighted to offer her on a long loan. She was collected by JLR, flown

out to China in October, and will be back in the UK in Spring.

Since arriving in China, she has already starred at the Guangzhou Auto Show, alongside the all-new Discovery 5, and will take part in further events in 2017. His launch D3 is also on show with G266BJU in China.

Roy.

Show dates 2017

January

8th Malvern 4x4 Spares Day Three Counties Showground, Worcestershire. WR13 6NW

March

26th Ripon 4x4 Spares Day Ripon Racecourse, Ripon, North Yorkshire. HG4 1UG
