

G-WAC Notes

From the Project Jay Preservation Group

A News Sheet for those who are interested in the factory registered G-WACs.

<u>August 2023</u>

August has been quite eventful for the Preston household, and at some of the weekends the events were not of a very pleasant nature.

I fell whilst in the garage at 11pm in the dark; I badly bruised my hip plus a bang on the head; why in the dark? Daphne and I were trying to find out why the engine on 478 kept letting us down and we were looking for sparks round the distributor: We saw some sparks and I will do a full report next month. I hit a few bad holes in the roads round our home and damaged the rear suspension on 526: both G-WACs are now with Dan at Dan Clark Services for his expert attention.

_

Frank says ... I've got myself a new-to-me Land Rover

Specifically, a Freelander 2 Sport SD4 LE – and what a mouthful that is. Short story: I failed to get round to sorting out the advisories on last year's MoT for my Range Rover L322. I was in serious danger of receiving a very large bill and being without a motor for a longer length of time than I could risk. Have a look at his blog. https://frankelson.home.blog

NEC November 2023

Project Jay Preservation Group have been allocated a stand at the prestigious NEC Classic Motor Show Friday 10th to Sunday 12th November 2023.

We are in Hall 2 stand 240. Stands at this show are highly sought after so being allocated a stand once again this year is a great achievement and honour.

I am therefore after 4 or 5 Jays to go on display. You will get two free passes for each day of the show with each car on display.

Set up is Thursday 9th November in the morning, and once in position cars cannot be moved until the show ends on Sunday evening. If any fully paid-up member is interested, please email me at secretary@pjpg.co.uk.

Tickets for the show are on sale now please use our discount code available to full members by emailing me.

To join PJPG and benefit from these fabulous deals go to our website for details and join online at www.pjpg.co.uk

Seen on Facebook. Research on 116-inch wheelbase Discoverys.

Hi everyone.

I am currently putting a lot of research into the 116" stretched Discovery ambulances of the early 1990s,

I already have quite a bit of information and a lot of photographs gathered, but I was wondering if anyone on here had any information or old photographs of these ambulances that they could send me for my research?

Thanks.

Rhys Williams.

Belvoir Castle LRO Show

The LRO Show was at Peterborough last year but this year will be at Belvoir Castle, Grantham, in Lincolnshire, 9th – 10th September, and we have been allocated a club stand.

We will have a selection of 3-door,5-door, different engines, and shiny and 'work in progress' on show. Live Promotions are running the event, the cost of their admin is £10 per Jay, and will include two wristbands for two occupants.

Other ticket prices can be found on their website and vary from an advanced purchase for single day visitor at £16, to £100 for a family camping weekend. We have seven Jays booked in to show and I look forward to being at this new venue.

The show passes have been emailed electronically, and it was a nightmare for me to follow the 'ENET PORTAL'. Why do the modern tech people change the meaning of English words? My Oxford English dictionary shows that a portal is an arched gateway!!

The total allocation for the stand is eight, so we should have a good space for the Jays and the gazebo.
